

Divergence of DH4148-mapped strains (5 largest contigs, PASS unmasked biallelic SNPs, every 4th site)

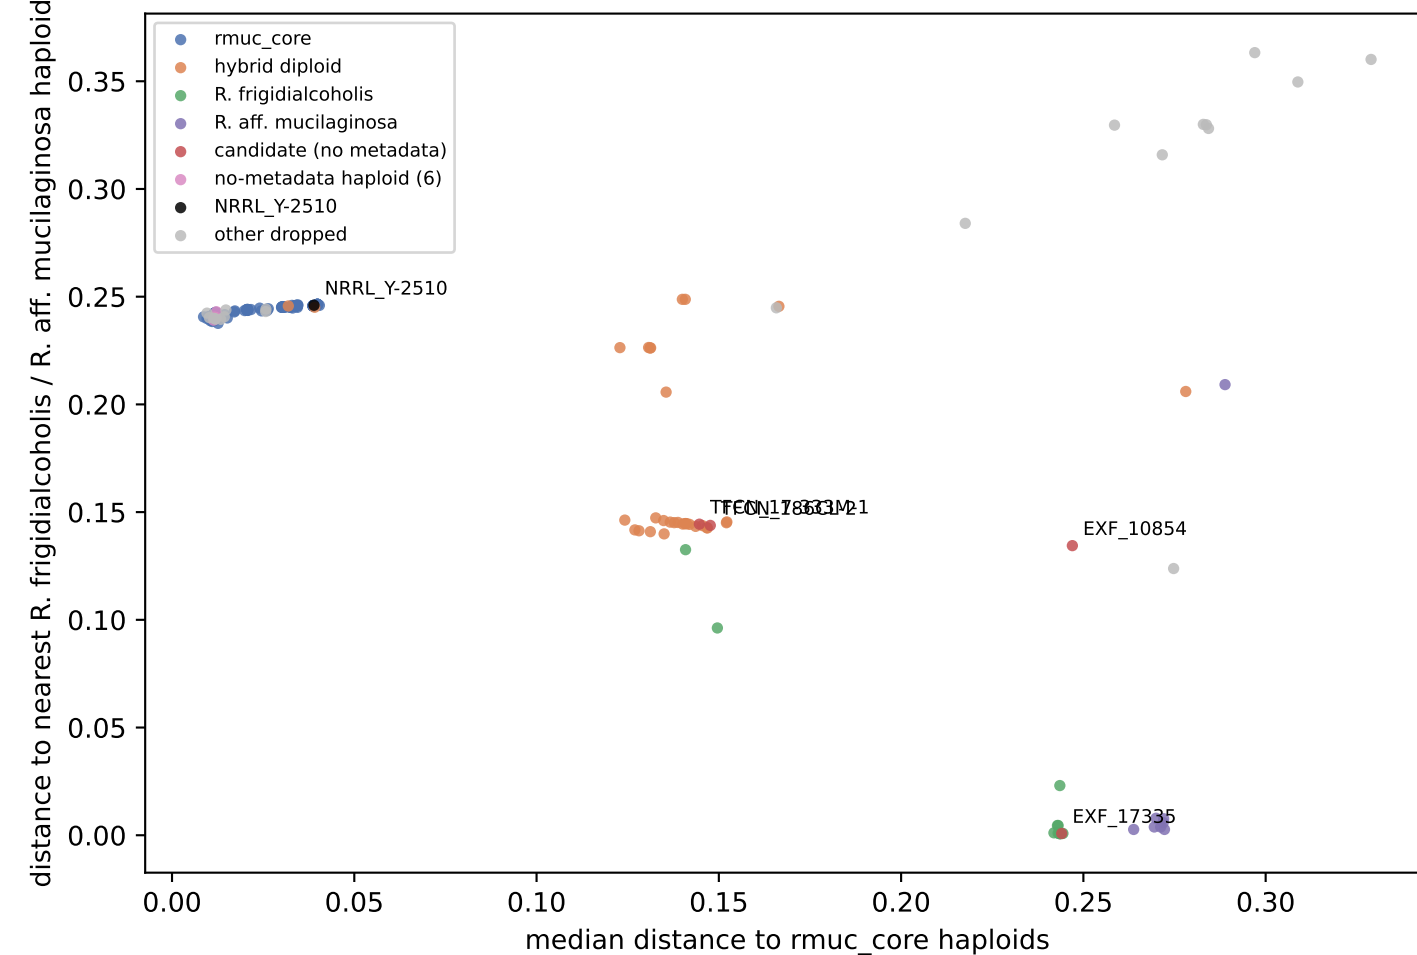

A. Divergence from the reference, all 319 strains

B. Pairwise distances; dashed = median distance of each candidate / NRRL_Y-2510 to core

C. Placement of each strain

D. Nearest-neighbour distance within rmuc_core haploids (n=234)
